JOSIAH TURNER, Jr., EDITOR.

OHIO POLITICS.

Speech of Hon. George H. Pendleton, at Cincinnati—Various Topics Discussed.

CINCINNATI, Sept. 11.—A large number of Mr. Pendleton's friends called at his residence on their way from the Fair, yesterday, and insisted on a speech. He begged off, but finally consented and spoke over an hour, supported on his crutches. Among other things he said:

I cannot agree with Governor Hayes that all the vexed questions of our national politics are wisely and happily settled. That the great question of liberty and union, and the reconstruction of the Union have been made safe, I cannot agree that: that retrenchment, economy and honesty have been introduced into the management of Federal expenditures; that the burdens of taxation have been reduced and their weight upon the people has been lightened; that sound judgment and freedom from bad influences have been brought to the exercise of immense power by the Secretary of the Treasury; that business is active; that enterprise is active; that vigor, and energy, and industry are bountifully rewarded; that employment is abundant; that daily toil is fairly compensated; that commerce on the ocean and on the land is prosperous, and, therefore, I cannot sincerely, as does our worthy Governor, turn my face from all questions of Federal politics and look only to State affairs. It ought to be so. If it were not for the schemes of consolidation; if State affairs were left to State management; if Federal affairs were kept within the scope of constitutional provisions it would be so. But I cannot pretend to believe what I know to be false. I cannot say the Union is restored when Virginia and Mississippi and Texas are under military governors and Georgia is without representation in Congress. Peace is restored when administered by a drum head court-martial. The constitution is maintained when we know that the Supreme Court is only waiting an opportunity to declare the reconstruction acts unconstitutional. I oppose the adoption of the fifteenth amendment because it is a material radical change in our system of government. It destroys the relation of the States to the Federal Union, which constitution it established degrades them, takes away from the States, without their consent, that essential attribute of a self governing community, the right to determine who shall exercise the right of suffrage; because it was intended to and will introduce negro suffrage in Ohio against the will of her people.

Two years ago the people of Ohio, without distinction of party, by an immense majority, refused to amend the State Constitution, after a full argument and full consideration of negro suffrage. I see no reason to believe they have changed their opinion. I object to this adoption, because it is part and parcel of the scheme to flood the country with the forced importation of Chinese Coolies, and bring into our midst and alien race, and repeat in a more difficult form the social and governmental question which have so unhappily divided our people.

The last report of the Secretary shows that he is hoarding $101,214,386 in coin, and $12,144,000 in currency. To what good purpose? Why are the people paying six per cent. in gold, as interest on the public debt, while the Secretary is hoarding this immense amount? Each month, with great parade, he sells six or nine millions, and with the proceeds he buys bonds, giving in the market for them twenty five per cent., above par. They are redeemable on their face by law in equity. They are payable in legal tender notes. Holders gave legal tender for them, when legal tender notes were worth not more than half what they now are. Contraction brings a universal fall of prices of goods and labor, while debts, taxes and moneyed obligations remain fixed. The man who has money becomes much richer. The system is radically unjust. Debts contracted on our expanded currency should be paid in the same currency. The dollar which is paid should be of the same value as the dollar which was loaned. The whole policy of the administration should be reversed. Pay the debt; pay it honestly, according to the contract; pay it in money as valuable as that which was received for it; pay it in legal tender notes, abolish the National Bank system; pay off the bonds on which they are founded; save yearly in interest; use every appliance of economy and management in advancing this policy.—Then, when the debt is paid, when taxes are reduced, when seventy five millions suffice for the Government, when all property is subjected to a just rule of taxation, if it be advisable to contract the currency and resume specie payments it can be effected without disaster, and the inevitable suffering can be borne.

CHEATING THE PEOPLE.

Much has been said about the sagacious financial policy of Secretary Boutwell, and his judicious action in the matter of purchasing bonds. The Chicago *Times*, however, shows up this matter in a proper and truthful light—when it says:

Secretary Boutwell is cheating the people out of $2,2000,000 on every $10,000,000 of bonds bought by him. He has bought now about $18,000,000, and will continue to buy $10,000,000 a month up to the meeting of Congress. In the next three months therefore, the people will be cheated out of $6,000,000, if bonds do not advance in price, and gold maintains its present premium.

The policy of the Secretary is to bring bonds to a par with gold, notwithstanding he is buying them, and, as they approach an equality with gold, the extent to which the tax-payers are defrauded is increased.

It is urged in his defence that he is acting under the authority of Congress. This does not alter the fact that the people are cheated out of 22 per cent. on his purchases of bonds. Let this truth be impressed upon the tax payers, and Congress be held responsible for its iniquity in prohibiting the redemption of bonds with treasury notes, according to the plain terms of the bargain with purchasers of bonds.

Various relics have just been sold at auction in Newport, R. I., among them a chair that belonged to Cotton Mather, a clock 237 years old, and various spicens of furniture that date back to a period before the revolutionary war. An iron hammer that "came over in the Mayflower" was also disposed of.

DOTY'S WASHING MACHINE,

LATEST STOCK INVENTED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with Rowell's Patent Double Cog-wheels, and the Patent Stop, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. J. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Salem Robinson.*

"Your Washing Machine has been in daily use in our laundry, and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a great amount of work, with much labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Inlood Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9 and we will forward either or both machines, free of freight, to places where no one is selling; and if we do not prove they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

WEDNESDAY, SEPTEMBER 15, 1869.

High Taxes, and the Dangerous Condition of Affairs. the Universal Talk in Rockingham—A Supreme Scoundrel of the League in Jail—Zack Groom, Chairman of the Board of Commissioners of Rockingham, arrested upon a Charge of offering Ten Dollars to three Negroes to Burn the House of Gen. W. Garrett—Judge Tourgee will miss Court again on Monday.

We write this from Reidsville, on the Piedmont Road. While we write, that able bodied Jurist, Judge Cloud, is passing the Hotel, having turn'd on a visit to Judge Settle.

Thirty-eight thousand dollars is the amount collected of the people of this small County, in the way of taxes. Two dollars is the poll tax. Ten thousand of this is to build Judge Settle's bridges.

Daniel Courts, negro, was arrested and brought before Richard Ray, one of Holden's Squires. Daniel defied the Court and the law; refused to be quiet when ordered, said a witness who was testifying, would swear a lie as soon as Squire Ray himself. Daniel said he would make Ray and all suffer when he got them before their "Mars Tourgee." Daniel, for want of bail, was committed to jail. He swore he would steal when he wanted to, and by stealing and taxation he expected to punish some people; and so Daniel does. This is not Daniel, but the outcroppings of the Legislative address and the teachings of the leagues. Even the negroes can't respect Holden's Squires.

Zeb. Groom, Chairman of the Board of Commissioners who levied this heavy tax, was arrested on a warrant and taken before Squire Stanard. Groom was charged by three of his brother leaguers with offering to hire negroes with the sum of ten dollars, to burn down the house of Mr. George W. Garrett. The prosecutor refused to try before Mr. Stanard because, he said, before he heard a witness that he knew Groom was not guilty. The case was heard before Richard Ray, the Justice whom Daniel Courts said would swear a lie as soon as the witness. After three days trial, Groom the Chairman, was acquitted and his brother leaguers who testified against him were put in jail under a charge of perjury. The case attracted great attention; Judge Settle and Ragland, the Clerk, and many of the scallawag family, were on hand to testify as to the character of Groom.

The Judge is said to have recommended Windy Billy Henderson for his place as Assessor for the 5th district. We judge by that that he could testify for Groom.

Henry Thomas, a worthy citizen, stated that Groom told him that if he were not restrained by his religious principles, he could head a party and burn every white house South of Dan River.

The reader should bear in mind that Judge Settle, or the Captain, as he is commonly called, lives on the North side of the River. Groom, himself, lives on the South side, but his house would escape, because it is not white. Every man in a white house South of Dan River, has refused to pray that Groom may hold to his religious principles with more tenacity than Gov. Holden did his; for nothing will save the white houses South of Dan if Groom should fall from grace and quit the Church, as the Governor did. Let all, South of Dan, pray for him to remain fixed and immovable in his religious principles.

Judge Tourgee, though on the train Saturday night, did not come to Court, as he might have done. It must be a late hour on Monday before he can open Court. The last Court here was held in mid harvest, and will be known as the Ku Klux Court. The Judge came on Wednesday to hold a special Court.

Guilford County has had seven weeks of Court this year. The two secret societies, Ku Klux and League, who have so long disturbed the peace of society in this County, are more moderate in their demonstrations towards each other than they were six months ago. When France was governed by secret societies there was no security to life, liberty or property; the same may be said of Mexico, and in some degree it is true of the whole Southern country. Neither life, liberty or property are secure, because of the secret workings of two political societies. You may cry "peace," but there will be no peace until these two organizations are dissolved.

FORGIVENESS.

A friend writing from Granville county, and enclosing the subscription price of the Weekly Sentinel for a Radical neighbor of his, says we once pleaded in a suit against him in Person county, and that he had hated us for it intensely, until we took charge of the Sentinel; that he had not read more than two numbers before he was ready to forgive us, and is now active in extending the circulation of our paper. He says he cannot do a great deal in getting new subscribers, as nearly every body in his section are subscribers already.

We thank our friend for the good will and kind offices; but we can assure him that, while the reading of two numbers of our paper induced him to forgive us as imagined wrong, the reading of the same number has made others hate us with a perfect hatred. We never have occasion to ventilate the morality of the unprincipled scoundrels who are preying upon the misfortunes of the people, but we bring down upon our devoted head, the curses and anathemas—the threats and the gnashing of teeth, of those whose plans of villainy we expose. But we try to bear all things with a manly fortitude, looking to the pleasures of a clear conscience and the support of good and honest men for our reward. For our exposure of what we believe extravagant and corrupt practices of unfit and dishonest public servants, we have had to face the violence of mobs and risk the bullet of the assassin. But none of these things move us; neither count we our life dear unto ourself, so that we may finish our course with joy, and hold up the evil practices of evil men to public condemnation.

TAXES.

In answer to J. T. B., Enfield, N. C., we state that, having obtained information on the subject of his inquiries from one of the first lawyers of this city, we are of opinion that there is an error in the information he has received in regard to the constitution ality of his taxes. The amount of special taxes for Railroads is forty two and seven-twelfths cents, which added to the maximum for ordinary purposes, would nearly amount to the sum mentioned as paid by our correspondent, to say nothing of county taxes.

Our friend, in common with his fellow sufferers, everywhere, must "grin and bear it," with the comfortable assurance that the worst has not come yet. The taxes next year will necessarily have to be increased about fifty per cent., that is, if the interest on the old State bonds is to be paid, which right and justice demands should be done.

The decision of the Supreme Court, as we understand it, is this: that for ordinary purposes, a tax of $2 on $300 worth of property may be levied, and outside of this a special tax is levied, the State gets, really, from 36 to 40 cents.

NEWS FROM JOE.

A gentleman from Richmond reports Joseph William as having recently made his appearance in that city. That boy, we fear, is leading the old man, who thinks Joseph is with Captain Settle on Dan River, reading law.

We will return good for evil. When Joe and "Dan" were editing the *Standard*, they published "Joe Turner" as "figuring in the bar rooms of Washington."

Now, if Joe has been figuring in the bar rooms of Richmond, we don't propose to publish him, but let him figure, even if he breaks A's tickler again, as he did on the North Carolina Railroad.

It is to be hoped that the Governor, while in New York, will not "figure in the bar rooms;" that would be too much of a good thing. The Governor figuring in New York and the Speaker of the House figuring in Richmond!

For the Sentinel.

KEEP THE RING MOVING!

Mr. Editor:—"A guilty conscience needs no accuser," is an old saying that rogues will verify to the end of the world! A writer in the *Standard* of the 16th, signed "Aliquis," attempts a feeble reply to your correspondent, "James." He publishes the vote of the private Stockholders at the Newton meeting, for Directors on the Western Road, showing that nearly two-thirds of it was cast against Gov. Vance and Judge Merrimon, and that one year ago the said private stock was nearly unanimous for them. He then accounts for Vance's defeat by saying that "the financial agents of the Road would not, at the bidding of *any* man, attempt to buy, and those who were anxious to buy were too poor to offer a price." What does he mean by that? Who were the financial agents, who would not buy at the bidding of *any* man, and would they buy, or did they, at the bidding of *two men*—say Holden and Tod Caldwell?—Do the rulers of the Ring require that "an order to buy shall be signed" by more than one man? Who should Vance try to buy? His own friends? The private stock, he says, was all Conservative, and voted almost unanimously for him, who then was it he was to buy? But the best of it is "that those who were anxious to buy were too poor to offer a price!" Of course the Ring was not "so poor" as having millions of State bonds.

The logic of "Aliquis" stands about thus: The private stock, enough to elect, was nearly unanimously for Vance, without money. But Vance was too poor to buy, himself, and the financial agents would not.

Ergo—Vance was defeated by his own friends!

Corollary—The Ring didn't buy anybody!!

Corollary 2nd—Not much!!

Exempli gratia. A boy, we'll call him Tod, had been in the closet stealing sugar. As he stepped out he saw Bill watching him. Licking his lips and hastily wiping the sugar from his mouth he exclaims indignantly, "Bill, that's an infernal lie, I never eat none!"

Please press them for an answer to the plain questions put by your correspondent, James, whose articles I have read with interest. How did it happen that the Conservative Stockholders removed Gov. Vance and Judge Merrimon, men of their own choice? What excuse is given for it?—Nobody doubts their right to vote for whom they see proper, but it is a little strange. Persons here who are familiar with the facts, know that these gentlemen were highly esteemed by the private Stockholders, and had fought their battles manfully against the encroachments of Holden and Caldwell, who struggled hard to deprive them of their rights. It is also well known that the malignant enmity of Holden and Caldwell toward these gentlemen, was incurred mainly by these efforts on behalf of the Stockholders, and especially of Col. Tate, who was hated by Mr. Caldwell with a peculiar hatred. Now that these gentlemen are all at once overwhelmingly beaten by the men who of all others should have stood by them to the last, it is passing strange! It shows that the Ring, which comprises as Carlysle says, "the very dregs of scoundrelism" has been at work with the people's money; it shows not only political corruption but a most remarkable degree of personal treachery; in short it shows that somebody has *acted the day!* Who is it? How is it? How was it done? Such very feeble articles as that of "Aliquis" containing only a denial of bribery by implication will not do. The people here *will* know.

"Aliquis" says that Tate and Powell are both men of "irreproachable character."—Perhaps so, but the writer happens to know that Tate *was* impeached and persecuted for years, by one Tod R. Caldwell, for all sorts of alleged corruption and crooked dealings; and has been reliably informed that scarcely a meeting of the Board of Directors ever passed that some fierce attack was not made upon him, in which he was always defended by his *friends* Vance and Merrimon. He may not belong to the Ring, though it is unanimously believed here that he does; he may not be guilty of any personal or political treachery in this matter, he may not have made *one cent* by his operations with the office of financial agent, as he avows he has not, but that he should consent to be re baptised in the same dirty pool of Radicalism with Tod R. Caldwell and C. J. Cowles, and hold a seat in the synagogue of his bitter enemies and slanderers, by the gift of Holden, is, indeed, strange conduct for a Democrat and a gentleman! The charity which requires a man to know this and yet believe his hands are clean, would indeed cover a multitude of sins. Perhaps he will speak for himself, and then we shall hear.

NOJOKE.

For the Sentinel.

At a meeting of the Directors of the North Carolina Real and Personal Estate Agency, held on the 31st day of August last, I was elected President. On the next day a drawing was advertised to take place on the 19th day of November, 1869, and my name published as President. This advertisement was made without consultation with me, and before the affairs of the Company had been looked into. Upon examining into them, I discovered that the assets were not sufficient to justify the announcement, and I immediately called a meeting of the Stockholders for the 16th day of September. At the meeting of the Stockholders on that day, I stated the condition of the affairs of the Company, as well as I could ascertain them from the books as I found them. The following resolutions were therefore adopted:

Resolved, That the President appoint a Committee of three to examine the books and papers of the Company, and ascertain, if possible, what disposition has been made of its funds.

The Committee under the resolution reported that they had not sufficient time for a thorough examination, and offered the following resolution:

Resolved, That the President be directed to employ two competent men to examine thoroughly into the affairs of the Company; to ascertain and report what disposition has been made of its funds; to put its present books into the best possible condition, and to open a new set of books upon such a system as shall secure the affairs of the Company from confusion hereafter.

This was amended so as to allow the President to appoint a third person, to be employed for not more than *five* days; and thus amended, passed.

The Chairman of the Committee also offered the following:

Resolved, That the thanks of the Stockholders are due, and are hereby tendered, to R. G. Lewis, Esq., Treasurer of the Company, for the faithful manner in which he has discharged his duties.

This was adopted, and it was then further

Resolved, That the Board of Directors be requested to make an assessment of three per cent. upon the stock of the Company, to be paid as follows: one per cent. within 15 days, and two per cent. on the 15th of October next.

Resolved, further, That the Stockholders who have already made payments of cash upon their stock, be allowed credit to the amount of such payments, upon this assessment, and if this assessment be not sufficient to meet the liabilities of the Company, the Board of Directors shall increase the assessment until it be sufficient.

Resolved, That the President is hereby requested to enquire into the matter of money paid to J. G. Hester, the late President, at Wilmington, for tickets and stock sold there, and to require the said J. G. Hester to pay said money to the Treasurer, or to account for it.

After the adjournment of the Stockholders, a meeting of the Board of Directors was called for Saturday the 18th inst. At this meeting, the following Directors, with the President attended: Robert G. Lewis Esq., and Messrs. J. G. Hester, J. C. Hester and Wesley Whitaker. After the proceedings of the Stockholders were read, R. G. Lewis Esq., offered the following resolution:

Resolved, That an assessment of three per cent., on the stock sold, be made—that one per cent of the same be paid on the 1st of October, one per cent on the 15th of October, and one per cent on the 30th of October.

Resolved, Further, that the Stockholders who have already made payments of cash upon their stock, be allowed credit to amount of such payments, upon this assessment. Mr. J. G Hester moved to amend by striking out all after the words "30th of October," and inserting the following:

Resolved, Further that the provisions of this resolution shall not apply to the stock sold by the late President in Wilmington, upon which 10 per cent was paid." This was accepted by Mr. Lewis, and the resolution, after discussion, passed.

The public can see from this action of the Stockholders, as well as of the Directors, that steps are being taken to raise money sufficient to place the Company upon a sound footing. I assure the public that every proper means in my power, as an individual, and as an officer of the Company, will be resorted to, to put right the affairs of the Company, and save those who have taken tickets from loss. No scheme will be advertised until this is accomplished, and then parties holding tickets can have the option to take money or exchange them for others. I feel a deep personal interest in the getting of the affairs of the Company straight, in addition to the interest I feel as an officer. My name was connected with it as one of the supervisors after the first drawing. While consenting I had no interest in the Company, and my only duty was to see that the drawings were fairly conducted, and I can assure the public that they were.

Very recently, before my election as President, I purchased some stock, but never knew anything of the financial condition of the Company until after my election.

SION H. ROGERS.

An enterprising Yankee has got up a Brussels carpet made from linen with a little wool carded in, and printed from blocks, which, when laid down over an inter-lining, has the appearance of a fine "body Brussels," and all for forty cents per yard.

"You have lost some of your friends, I see, said a traveller to a negro whom he had met on the road. "Yes massa." "Was it a near or distant relative?" "Well, putty distant—'bout twenty-four miles," was the reply.

For the Sentinel.

Hillsboro', Sept. 18, 1869.

Mr. Editor:—You have already warned the people that a plan was on foot to sell what interest they have in the N. C. Railroad. With that Road in the hands of carpet-baggers and the "Ring" what will become of us?

We have local freight trains only once a week. The small merchant must suffer by such arrangement. H. N. Brown, who can fill a car, can get his goods off at any time; not so with the man who can't fill a car; he must wait for the weekly local freight. Brown received a case of dry goods this Spring worth near $500, weighing 200 pounds; the freight on this package was $4 50. He received a roll of leather weighing 500 pounds worth $100, freight $7 50.

A bale of cotton is taken from Augusta, Ga., to New York for $5—one cent per pound, when the bale weighs 500 pounds—or one and a fourth cents per pound when lighter. The freight on dried apples from Hillsboro, is one and a half cents per pound. This is warring against the women and children who dry apples. Cotton is carried at great risk to the railroad corporations. The cotton is often burnt, car and all; dried apples are not easily fired.

I started this to tell you of Pogue and the onions. Pogue is the enterprising Tinner whose advertisement is to be found in your paper. He shipped nine bags of onions to Wilmington—weight 1,221 pounds; freight to Goldsboro $8 24; from Goldsboro' to Wilmington only $1 22. The distance from Hillsboro' to Goldsboro' is about the same as from Goldsboro' to Wilmington. How and why is this?

There is judgment, skill and discernment in the adjustment of the tariff on goods from New York or Boston, or goods imported; on goods and the products which we export, the tariff is laid at random without judgment, discernment, justice or discretion.

The Raleigh & Gaston Road charges six cents a mile; the Seaboard and Roanoke charges seven. If the State's interest in the N. C. Road is sold, the "Ring" will not be too good to make the face ten cents per mile.

Keep the people advised as to the moves and motives of the "Ring," don't allow Littlefield and Company to swindle the State out of its Railroad property.

TRADE MARK.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. They can be worn with perfect ease for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. How to select Glasses. It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. When the eyes ache or pain through the action of a bright light, such as is reflected from the snow, misty weather, white paper, and in reading, writing or sewing, or small colored bodies; these lenses, by softening the rays effect a most agreeable sensation and give great relief.

4. These spectacles are scientifically adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. After several years of public practice, adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. M. Bernhardt, to signalize himself from the host of spoken for in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction, who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,

F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,

Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,

Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

J. M. ATKINSON,

Raleigh, March 28, 1866.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

JONATHAN WORTH,

Governor of North Carolina.

State of South Carolina,
Executive Department,
Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist &c.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,

JAMES L. ORR,

Governor of South Carolina.

Prof. Morris Bernhardt, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,

Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

GULLETT'S COTTON GIN.

ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

MAYOR'S COURT, TUESDAY.—Action of ejectment, Alvis Sorrel against Charles H. Dunston, colored; George H. Snow, Esq., counsel for the defense. After hearing the case, His Honor decided in favor of the plaintiff.

FAIR GROUNDS.—We had the pleasure of a drive, on Monday afternoon, to the Fair Grounds and to the new Cemetery.—We found that, at the Fair Grounds, great improvements have been made since our last visit. The track is finished and is in fine condition. Many of the stalls are already completed and work on others is going on vigorously. Yesterday (Tuesday) the work on the buildings was to be commenced, and they will be put in order in a week or two. Everything about the grounds for the convenience of exhibitors and comfort of visitors is being attended to, and if the Fair should not prove a splendid success, it will not be attributable to any lack of energy or to neglect of proper provision on the part of those having the management of affairs here.

It is due to Rev. J. Brinton Smith, Corresponding Secretary of the Committee, to say, that to his untiring efforts and zeal in the work of preparing the grounds and contributing in various ways, in concert with the President, to the furtherance of the work, the Committee and the Society are much indebted for the encouraging prospects of success of the approaching Fair.

And here we will drop a hint to our friends throughout the State. Don't hold back, because you have nothing *first rate* to bring up for exhibition. Remember we have all been torn up by the war, and there will propably not be as many *first-class* articles in the State as there would be under different circumstances; if you have something *pretty good*, bring it along, and let's make it as good and as full as we can, with such as we have, and next year we can do better.

NEW PAPER.—We learn that a new paper is soon to be started at the new town of Ridgeway, Warren county, to be called the "Ridgeway Press," T. M. Hughes, Esq., Proprietor and Robert M. Furman, Esq., late of the Henderson *Index*, editor. It will be devoted to news, literature, agriculture and miscellaneous matters.

Hughes being on "the hind end of the bellows," and Furman as "sharp as a steel trap," we have no doubt, they will make the *Press* a good newspaper.

Speaking of Ridgeway reminds us that we heard a few days ago, that it is becoming quite a town. We know the location is all that could be desired for a beautiful, pleasant inland town, and the people around there are the "right sort." From what we learn, Ridgeway is likely to become the nucleus of one of the most flourishing and desirable settlements in the State.

WE shall pay our respects to the communications which appeared in the *Standard* of Tuesday morning, in regard to the Book controversy, so far as allusions are made to the SENTINEL, when we get ready. We see no use in hurrying the funeral as the weather is cool.

L. D. WILKIE, of mule notoriety, was arrested on Sunday night, on the charge of shooting with intent to kill Mr. David Green in Jones county, on Tuesday of last week. He was taken before Judge Thomas, who held him in a bond of $10,000 to appear for examination on Monday next. The *Journal of Commerce* says: "We understand that the evidence against Wilkie is of the most positive and damning character."

DEATH FROM A SINGULAR CAUSE.—A Mr. Tyner, residing in Johnston County, died last Friday, from a very singular cause. He was engaged in stacking some fodder, when he was bitten on the face, near the corner of the right eye, by some reptile or insect. Great pain immediately ensued, and a physician was sent for; but before he arrived the sufferer was insensible, and despite every remedy employed, he died within nine hours after he was bitten.

Our informant states that Mr. Tyner was of opinion that the bite was from a striped lizzard; but the physician thought it was inflicted by a spider.

THE WAYNE WORKS.—The *News* says, the Township of Asheville pays more taxes this year than the whole county of Buncombe paid in any previous year.

The people of Fayetteville have voted almost unanimously in favor of a subscription of $75,000 to the Fayetteville and Florence Railroad.

The freights on cotton between Wilmington and New York have been considerably reduced.

THE BLACK BAND: Or, The Mysteries of Midnight, A Romance by Miss M. E. Braddon, 1 vol. octavo. Price 75 cents.

The opening chapters are of such rare and fascinating interest that nothing which could be said of the details of "the" story would be likely to enhance the excitement which their perusal is sure to create.

The doings of an Oath bound Secret Association, forms a leading feature of this wild and stormy narrative of passion, intrigue and revenge. The indomitable and unscrupulous leader of the "Black Band," is the master spirit of the drama, and the other *dramatis personæ*, while endeavoring to subserve their own purposes through his own instrumentality, are in effect his puppets. No greater conception of a bold, bad man, of powerful genius and unyielding tenacity of purpose, is to be found in the whole range of modern romance.

OSCAR BERTRAND. Octavo, Brown Covers. 150 Pages. Price 50 cents.

Miss Braddon has thrown all her power into this work, which is by far the best of the many excellent ones that have issued from her pen, and we think will take rank as the most brilliant novel of the day. The characters are drawn with the most masterly hand, evincing a thorough knowledge of the main springs of human action, and a deep insight into the controlling passions which prompt us to good or evil. Plot, passion, character—every point is full of her peculiar and popular characteristics.

THE FACTORY GIRL: Or, All that Glitters is not Gold. Over 200 Pages, Octavo, Brown Covers. Price 75 cents.

In this Book the genius of the great authoress seems crystalized—she attains the acme of the thrilling and exciting. Every character palpitates with life—every incident is full of fire and vigor. The plot is a miracle of ingenuity. The language is forcible and glowing. In short, "The Factory Girl" is a splendid book from beginning to ending. The fair heroine enlists the reader's sympathy from the start and her varied fortunes are followed with increasing interest from chapter to chapter.

THE OCTOROON: Or, The Lily of Louisiana. Octavo, Brown Covers. 150 Pages. Price 50 cents.

This is the only romance that this great authoress has yet written in which the scene is laid in this country; and all who remember the Crescent City in the "dark and bloody" days, will admit that she has painted the terrible tragic incidents with striking fidelity.

A COMPLETE DICTIONARY OF POETICAL QUOTATIONS, comprising the most excellent and appropriate passages in the old British Poets; with choice and copious selections from the best modern English and American Poets, edited by Mrs. Sarah Joseph Hale; beautifully illustrated with engravings. Price $3.

The plan of this work is felicitous. It contains nearly 600 octavo pages, tastefully selected from home and foreign authors.—To writers this book is invaluable as a Cyclopedia of the best poetic thought on every topic—to the general reader, it is in itself a library of the choicest gems.

All of the above books can be had at the N. C. BOOK STORE, JAMES H. ENNIS, Agent, Raleigh, N. C.

HENDERSON FAIR.—We tender our thanks to Dr. W. W. Young, Chairman of the Executive Committee of the Central Agricultural Society, for complimentary tickets to the Fair to be held in Henderson commencing on the 12th of October. We shall probably be on hand.

WORDS IN FAVOR OF A PUBLIC BENEFACTOR.—We refer to Dr. M. Bernhardt, the Prussian Optician, who has occupied Room No. 15 Yarborough House, in this city, for the past few weeks. We say public benefactor, because he has wrought more good to those heretofore afflicted with defective eyesight than any other optician who ever visited our city. Dr. Bernhardt not only has the best Glasses, but he carefully examines the eyes of his patients and gives indispensable advice as to the proper selection of them.—He has given his services to upwards of five hundred persons since his arrival in this city, and in no case was not perfect satisfaction guaranteed and given. The Brazilian Pebbles and Australian Crystal Spectacles are peculiarly and scientifically adjusted to every case of defective sight with accuracy, on a new principle, which has seldom failed to be correct. The Glasses are excellent and the workmanship most elegant, which goes to prove that Doctor Bernhardt, by his long experience, both in his native country and in this, is *master of his profession*. Citizens of all ages flock daily to his rooms, and we are glad to state that his services are so much required that in order to fulfill all orders he is *compelled* to remain with us several days longer. To those afflicted with weak eyes or nearsightedness we would say, give Dr. Bernhardt a call, for if help can be rendered, he is capable of doing it. This is not only our word, but hundreds who have already applied and found relief, will testify to the truthfulness of our assertion. Call at Room No. 15 Yarborough House.

SOMEBODY COMING.—John O'Connor, late of Newbern, has sold out his hotel fixtures there, and removed to Raleigh, where in connection with Jo. Prarie, the Restauranter, he intends opening a first class Hotel on the European plan. The *Journal of Commerce* says: "While Newbern will lose, Raleigh will acquire a citizen of fine industrious business habits."

Oak City Council, on Monday evening last, elected the following representatives to the State Council:

THE *Reconstructed Farmer* for September, has just made its appearance upon our table, and as it's coming is ever welcome, it received at our hands a most hearty greeting.

THE UTLEY
COTTON PRESS.
A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS associated it where it is, and the most so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes, and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring and we would advise all persons wanting presses to withhold buying until they examine this.
THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that in between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in expounding its merits.

The ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

THE ÆTNA,	13,41

It has a most IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other ever one. It insured more lives in Canada than any other Company, British or American.

And what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 944 policies, received an income of seventy-eight thousand dollars, and possessed total assets amounting up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,427 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars and had amassed solid, securely and profitably invested trust assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

THINGS THAT NEVER DIE.

The pure the bright, the beautiful
That stirred our hearts in youth,
The impulse to a wordless prayer,
The dreams of love and truth,
The longings after something lost
The spirit's yearning cry,
The striving after bitter hope—
These things can never die.

The timid hand stretched forth to aid
A brother in his need,
The kindly words in grief's dark hour,
That proves a friend indeed,
The pleading for mercy softly breathed,
When justice threatens high,
The sorrow of a contrite heart—
These things will never die.

The memory of a clasping hand
The pressure of a kiss,
And all the trifles sweet and frail
That make up love's first bliss;
If, with a firm, unchanging faith,
And holy trust and high,
Those hands have clasped, those lips have met—
These things shall never die.

The cruel and the bitter word,
That wounded as it fell,
The chilling want of sympathy,
We feel but never tell;
The hard rebuke that chills the heart
Whose hopes are bounding high,
In an unfading record kept—
These things shall never die,

Let nothing pass, for every hand
Must find some work to do;
Lose not a chance to waken love,
Be firm, and just, and true.
So shall a light that cannot fade
Beam to thee from on high,
And angel voices well say to thee—
These things shall never die.

MARITAL INFIDELITY—HOW IT IS PUNISHED IN THE SANDWICH ISLANDS.

There has been a grand matrimonial case just decided in the Sandwich islands. Great indeed must be the offence that would there lead to extraordinary punishment. The delinquency of a wife, if committed in favor of a foreigner, is considered not as an offence, but as bringing honor on the family; and the gallantry of the illustrious foreigner is considered as a mark of peculiar sympathy and respect on his part. If the delinquency should be committed in favor of a native, it is a crime which some slight chastisement will atone for. But the offence of which we now hear was one of exceptional gravity. The culprit was Timoni, nephew of the august sovereign. There was evidence to prove that the affronted husband, a respectable citizen, had just cause of offence. The king, Kamehameha, mounted his throne in the public place, surrounded by the elders (or senators), and there, with a grand pretending every inlet, the sovereign administered public justice. The culprit, followed by the executioner with a sword, stepped into the arena before the throne. The monarch gave a sign; the soldiers lowered their lances; the unfortunate lover unhesitatingly lifted his hands wide open above his head; and then the executioner, skillfully swinging round the blade, cut off the whole row of fingers. The success of this dexterous operation was announced by a shriek of pain. With great dignity the king then turned to the faithless wife, and said: "It is thy turn, woman!" The woman was so terrified that she had to be supported by several soldiers. Holding a small, sharp knife, the executioner approached, and in a few seconds her ears fell to the ground, while her face was so lacerated as to be completely disfigured. But here the matter ended. Husband and wife were not separated, but reconciled—the woman's crime having been washed out in blood.—The royal nephew immediately regained his favorite court, and the wife went home with her husband.

A MARRIAGE IN EXTREMIS.—Marriages *in extremis* are not unfrequent in France, and the plot of many novels turns upon them. The validity of a union of the kind at the very last moment is now awaiting a decision of the civil tribunal of Tonnerre. A few months ago the Procureur Imperial of that town was roused up in the dead of night by a man on horseback, who said he had ridden at full speed from the country house of M. Humbert, who was at the point of death, and desired to be married immediately, and begged the Procureur to allow the civil officer to celebrate the marriage at his bedside without the usual preliminary formalities. The Procureur answered out of his window that he could not do what was asked at the mere instigation of a messenger whom he did not know; but that if a certificate were brought from the Mayor of the village in which M. Humbert lived he would grant the dispensation. The messenger "spared not for spouling of his horse," dashed back, woke up the Mayor, returned to Tonnerre, and was so successfully active that before daybreak there was assembled in the death chamber a number of the Municipal Council (delegated by the Mayor to perform the civil marriage) the cure of the parish, and two witnesses.—Kneeling down by the side of the bed, in an agony of grief an suspense, was a lady who for eighteen years had lived with M. Humbert (one of the wealthiest land owners in the neighborhood) as his mistress. A young girl, the issue of the irregular union, was also in the room, and the object of the marriage was to confer upon her the *status* of legitimacy, as the French, like the Scotch law, allows *per subsequens matrimonium*.—The marriage was gone through, and two hours afterward the husband expired. He left behind him a fortune of 800,000f. every son of which will go the widow and daughter if the marriage be held valid, as in all probability it will be. The disappointed blood relations, who had taken it for granted that the inheritance would come to them, have brought an action to have the marriage declared null and void. M. Allou, for them argued that the marriage was bad—first as clandestine; and second, because M. Humbert was too near death at the time to be able to give a valid consent. M. Lechand pleaded for the widow and child. The court at once overruled the objection on the ground of clandestinity, holding that the dispensation of the Procureur Imperial was sufficient, but it reserved final judgment until after an inquiry as to whether at the moment of the marriage M. Humbert had sufficient consciousness to know what he was doing.

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. LAWRENCE TO ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are afflicted with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not as liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFECTIVELY *stimulates* and CORRECTS the *hepatic secretions* and EMOTIONAL DERANGEMENTS of the LIVER, without debilitating the system. While it acts PLEASANTLY upon the Liver in case of CONFIRMED TORPIDITY, it gradually changes the diseased organ to A PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its work KINDLY, SPEEDILY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the importance of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suppression of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, proves irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, (mental and physical) are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows: A dull, heavy feeling in the head; sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of memory; Dejection of spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me and stating your case in full, and I will answer you promptly.
